

Spring greetings from Biogreen!

Hope you're doing great!

We would like to keep in touch with you and share the things that make us excited in Biogreen. Here's the newest roundup of what's going on in our company.

Let us know if we can help you in your projects by [contacting us](#). We will be happy to hear from you!

What's new in ETIA

Ascodero Productique joins ETIA Group

Our engineering and production capacities are growing up! With now 25 people, our engineering &

design department is able to follow fast growing market for Biogreen applications, rising up our Group to the next level of development in local Biogreen assembly center near Compiègne.

Biogreen Africa launch African market!

Only few months after the creation of Biogreen Africa - a subsidiary of the ETIA Group, established to bring the

Biogreen waste to energy solutions to the African market, Biogreen Africa is already involved in several projects for producing electricity from MSW using Biogreen technologies

New RnD facility exclusively for biomass

Solutions for biomass valorization keep developing! We follow the increasing market demands and created

a new biomass exclusive test facility and biochar R&D center located in Saint Bonnet de Rochefort (Auvergne).
