

Autumn greetings from Biogreen!

When the weather outside gets cold, we would like to warm you up with latest news about Biogreen technology! Here's the newest roundup of what has been going on in our company lately.

Let us know if we can help you in your projects by [contacting us](#). We look forward to all your thoughts and will greatly appreciate every bit of your time!

Biogreen for hydrogen production

Candidature of our technology has been recently chosen for the project "[Territoires Hydrogènes](#)" aimed at creating territorial hydrogen ecosystem in Normandy, France.

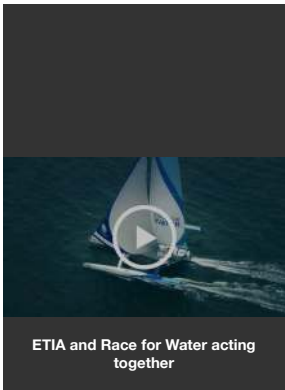

Pollutec 2016 upcoming exhibition

Interested in meeting us? Join us [at the Pollutec](#), Europe's leading fair for environmental technologies open from 29 november to 2nd december 2016. We are present at stand G166.

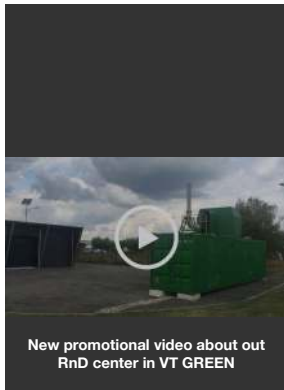

ETIA mission to Southeast Asia

We were honoured to be a part of the European clean technologies [invited and showcased](#) on the October's European Union business mission to Singapore and Malaysia.

ETIA and Race for Water acting together

ETIA is proud to be chosen by Race for Water Foundation as the technical partner for developing Biogreen solution to valorize plastic into electricity in order to preserve water from plastic pollution.

New promotional video about out RnD center in VT GREEN

We are happy to present our new video promoting the pyrolysis research and expertise center at VT GREEN - a subsidiary company of ETIA specialised in R&D on biochar and biooil products.

Thank you for staying with Biogreen!
